

# SUNWAYS BIG EVENTS

Feb. 2022

In February, Sunways continued aggressively exploring global business expansion and speeding up globalization deployment. This month, we hosted training sessions around the world, participated in exhibitions and forums in Poland and the Philippines, kept the high speed of shipment, and guaranteed on-time delivery even though in the circumstances of the Chinese new year holidays, Covid19 pandemic, and the unstable international situation. We maintained strong communication with our clients and continued to work on green energy projects as usual. Meanwhile, we cherished every opportunity to showcase our latest innovation and draw greater attention on the international stage. Be a better Sunways in 2022.

This "Big Events" will be released once a month by email. To ensure delivery to your inbox with success, please add [info@sunways-tech.com](mailto:info@sunways-tech.com) to your address book.

## Sunways Globalization
