

SUNWAYS BIG EVENTS

Mar. 2022

In March, Sunways continued to expand its global presence and accelerate globalization deployment. We attended a forum and workshop in São Paulo and Prague, maintained our high shipment speeds, and ensured a consecutive delivery this month as always. In the meantime, Sunways has welcomed a new colleague with extensive experience in the renewable energy industry to propel rapid growth in the European market. To help to achieve the goal of carbon neutrality, Sunways adheres the concept of green and low-carbon development, fulfills its corporate social responsibility, and promotes renewable energy consumption.

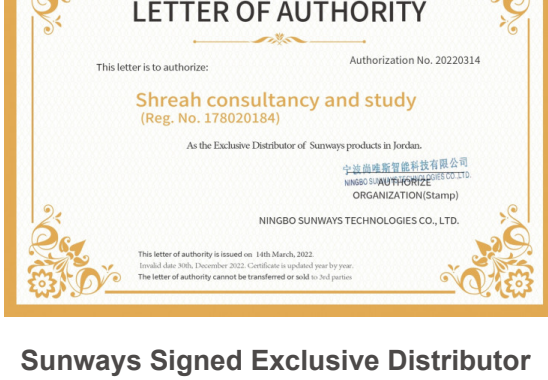

This "Big Events" will be released once a month by email. To ensure delivery to your inbox with success, please add info@sunways-tech.com to your address book.

Sunways Globalization

Sunways and Memodo Collaborated on a Fantastic Workshop in Prague.
